EMMEGISOFT MACHINE SOFTWARE

Software for managing cutting lists and linking with external calculation programmes. The Terminal Server version (in which both software and data are installed only on the server) offers the advantage of simplified maintenance, faster operation and flexible use, including from outside via the Internet, provided the maximum number of concurrent users is not exceeded.

"LT" version:

Software for managing cutting lists and linking with external calculation programmes, compatible with the "standard" EmmeGISoft format.
